

What is ECMHC?

- Ø EMCHC is a problem-solving and capacity building intervention implemented within a collaborative relationship between a professional consultant with mental health expertise, child care, early education, and child development professionals and families.
- Ø ECMHC aims to prevent, identify, treat and reduce the impact of mental health problems among children from birth to age 5.
- Ø ECMHC provides services in the child's natural setting which can include home, early learning center, family childcare home, and school.
- Ø ECMHC promotes and support nurturing relationship between children and their caregivers as a means of fostering healthy child development.
- Ø ECMHC is FREE. So that all children and their families can benefit from support, there is NO cost or charge for any service.
